STATISTICAL ABSTRACT OF HIGHER EDUCATION IN NORTH CAROLINA, 1970-71

MARCH 1971
NORTH CAROLINA BOARD OF HIGHER EDUCATION

SUMMARY HIGHLIGHTS

1. CURRENT ENROLLMENT - In fall 1970 a total of 140,485 students were enrolled in North Carolina colleges and universities. Of this total 92,597 students, or 65.9 percent, were enrolled in public institutions, as opposed to 63.9 percent for fall 1969.

2. ENROLLMENT TRENDS - The total 1970 college enrollment increased by 6.3 percent over the 1969 figure. While the enrollment in the public institutions increased 9.7 percent, the enrollment in the private institutions increased 0.4 percent.

3. UNDERGRADUATE TRANSFERS - More than 9,000 new undergraduate transfer students were enrolled in North Carolina colleges and universities, public and private, in fall 1970. This represented a 15.7 percent increase from the fall 1969 figure.

4. DEGREES CONFERRED - The number of bachelor's degrees granted by North Carolina colleges and universities during the year ending June 30, 1970 increased from 17,565 to 18,590. Similarly, the number of doctor's degrees rose 14 percent to 634 degrees. However, the number of first professional and master's degrees fell from the previous year.

5. FACULTY AND STAFF - In fall 1970 the precentage of full-time faculty with doctor's degrees varied from 78 to 24 among public senior institutions. In fall 1969 this range had been 73 to 24.

6. LIBRARY RESOURCES - The number of bound volumes per full-time equivalent student at private senior institutions (116) is nearly twice that at public senior institutions (60). While both the public and private averages increased from the 1969 figures, the private average has increased faster than the public.

7. EXTENSION ACTIVITIES - Public senior institutions enrolled 5,505 persons in noncredit adult education courses during the 1969-70 academic year.

8. STUDENT COSTS - Tuition charges for the 1970-71 academic year for North Carolina students attending public senior institutions range from $150 to $450. The same range for North Carolina students attending private senior institutions is from $750 to $2,100. Tuition and required fees for North Carolina residents in 1970-71 rose 16 percent over the 1969-70 period in public senior institutions and by 11 percent in private senior institutions.

9. ADMISSIONS AND FINANCIAL AID - The median Scholastic Aptitude Test score of fall 1970 entering freshmen in public senior institutions was 461 on the verbal test, reflecting no change from last year's score, and 500 on the mathematical test, increasing two points from last year's score, for a combined score of 961.

10. STUDENT HOUSING - Nearly one-half of the total students in public senior institutions were housed in college-owned dormitories in fall 1970. This ratio has fallen considerably since 1960, when almost 70 percent of total enrollment was housed in residence halls.

11. FINANCIAL STATISTICS - While 27 percent of the current funds revenue in private senior institutions came from student tuition and fees, only 10 percent of this revenue in public senior institutions came from student tuition and fees.

PREFACE

For the people of North Carolina to get the most effective utilization of resources allocated to higher education, comprehensive statistics on higher education must be assembled, analyzed, and made available to those who plan and then to those who must decide. To this end the North Carolina Board of Higher Education herewith presents its fourth annual Statistical Abstract. This Abstract covers the breadth of higher education activities in the state from simple counts of degrees conferred to a complex analysis of the flow of student transfers among institutions.

The data for the Abstract were assembled by the research staff of the Board of Higher Education from information supplied by the colleges and universities. I wish to express particular appreciation to Mrs. Margaret Allen and Mrs. Linda Balfour of the Board staff for the meticulous care in preparing the tables. Publication of the document would not have been possible without the continuing and wholehearted cooperation of the institutions, public and private. To all of them I express my appreciation.

Cameron West
Director of Higher Education

SECTION I

CURRENT ENROLLMENT

A grand total of 140,485 students were enrolled in North Carolina institutions in the fall of 1970. The detailed characteristics and numbers of these enrolled students appear in this section.

The percent enrolled in public institutions rose to 66 percent (from 64 percent in fall 1969), while the percent enrolled in private institutions fell from 36 percent to 34 percent.

The general characteristics of college enrollment by public and private institutions are illustrated in Figure 2. The detailed data by institution is presented in Tables 2, 3, and 4, while Table 5 gives statistics on full-time equivalent (FTE) enrollment, thus accounting for part-time students.

The home counties of in-state undergraduate students are presented in Table 6 by type of institution. Table 7, similarly, shows the home states of out-of-state undergraduate students by type of institution. Comparable data, by institution, is contained in Tables 8 and 9.

The enrollment of graduate and first professional students is presented by sex and residence in Table 11. Data on graduate students, by field of study, is shown in Tables 12 and 13. Foreign student enrollment figures are given in Tables 15, 16, and 17. The information includes the country of origin and the percent of foreign students by institution.

SECTION II

ENROLLMENT TRENDS

Total enrollment in North Carolina colleges and universities increased from 4,698 students in 1900 to 140,485 in 1970. The growth was interrupted during the period 1948 to 1951 when the enrollment dropped from 46,039 to 40,708. Since then the growth has been tremendous, more than tripling the 1951 enrollment.

High birth rates, increasing disposable income, and rising aspirations of citizens for higher education have accounted for much of the upsurge in enrollment since World War II. The annual rate of increase in enrollment reached a peak in 1965. Since then it has continued to increase but at a slower rate.

Time series data on total enrollment is presented in Table 18. The number of students by institution as well as the varying rates of increase among institutions is shown in Table 19.

Trends by in-state and out-of-state residence status are shown in Figure 5 and Tables 20 and 21. Enrollment in graduate degree programs (Table 25) showed an increase over 1969 of 14.6 percent in public institutions and 3.1 percent in private institutions.

SECTION III

UNDERGRADUATE TRANSFERS

The information in this section relates to undergraduate students who transfer within the state and from other states to North Carolina institutions. Transfers from North Carolina to other states are not included. Information on transfers for the past five years is found in Table 27.

Figure 7 shows the flow of transfers between and within each of the four types of institutions in the state and from institutions in other states in fall 1970. The actual number by sex is shown in Table 28. A comparison of the flow of transfers with its counterflow reveals that the community colleges received more transfers than they sent to other types of institutions. The public senior institutions received about twice as many transfers from private senior colleges (695) as they sent to private senior colleges (353).

Detailed information on the origin and destination of transfers in the state is presented in Table 29 (from two-year to senior institutions), Table 30 (among senior institutions), Table 31 (from senior to two-year colleges), and Table 32 (among two-year institutions). From the data in these tables, a comparison of the numbers of in-transfers and out-transfers of any given institution can be made. Transfers from other states to various types of North Carolina institutions are shown in Table 33. Most of the out-of-state transfers (48 percent) emanate from the neighboring states of Virginia, South Carolina, Georgia, and Tennessee.

SECTION IV

DEGREES CONFERRED

This section pertains to earned degrees conferred by North Carolina senior colleges and universities during the 12 month period ending June 30, 1970. Information presented concerns only bachelor's or higher degrees. Degrees or certificates awarded upon completion of less than four years of work beyond high school are not included.

North Carolina public and private senior colleges conferred the largest number of degrees in their history during 1969-70. A total of 23,086 degrees were conferred by the 47 senior institutions of higher education. This represents an increase of 1,040 degrees (or 5 percent) over the number granted during the previous year. The number and percent change at each level are presented by institution in Table 34 and by field of study in Table 35.

A comparison of public and private institutions as to their degree production in each field of study is presented in Table 36. This comparison at the bachelor's level is depicted in Figure 9.

More detailed data by institution, sex, and field of study is presented in Table 37 for bachelor's degrees, in Table 38 for first professional degrees, in Table 39 for master's degrees, and in Table 40 for doctor's degrees.

SECTION V

FACULTY AND STAFF

Data on faculty and staff in North Carolina senior institutions is presented in this section. The number of employed personnel by primary function and status of employee is shown in Table 41. All professional employees are classified by full-time and part-time status under seven categories in this table.

Tables 42 and 43 discuss in detail aspects of professional personnel in the first two functional categories, excluding academic deans. Academic rank and highest earned degree of full-time faculty is given in Table 44. Figures 10 and 11 depict the percent distribution of academic rank over recent years and percent of faculty with doctor's degrees, respectively.

Retention and replacement facts of full-time faculty from fall 1969 to fall 1970 are presented in Tables 45, 46, and 47. Salary information about faculty members in public and private institutions is recorded in Table 48.

SECTION VI

LIBRARY RESOURCES

This section concerns library resources of North Carolina colleges and universities for 1969-70. A bound volume is defined, for statistical purposes, as a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work contained in one binding or portfolio, hardbound or paperbound, which has been classified, catalogued, or otherwise prepared for use. This includes bound periodical volumes and all nonperiodical government documents.

Table 49 shows the number of bound volumes and other resources. Numbers are given for public senior, community colleges, private senior, seminary and Bible colleges, and private junior colleges. The number of bound volumes as of June 30, 1969, may differ at some institutions from given figures in The Statistical Abstract of Higher Education in North Carolina, 1969-70, due to a more recent inventory of library resources.

Using the measure of bound volumes per full-time equivalent student (FTE - see Appendix B for definition), gives a common unit of comparison. The University of North Carolina at Chapel Hill leads all public institutions in this category (103 volumes per FTE) by a considerable margin. Duke and Davidson lead private senior institutions, with 273 and 179 books per FTE, respectively (see Figure 12). In general, private institutions have roughly twice as many bound books per FTE as public institutions.

Total operating expenditures is the topic of Table 51. This concept includes all wages and salaries, salary equivalents of contributed service staff, expenditures for books, other materials and binding, and other expenditures.

SECTION VII

EXTENSION ACTIVITIES

The extension activities of 13 public senior institutions are described in this section. These institutions are the six campuses of the University of North Carolina at Asheville, Chapel Hill, Charlotte, Greensboro, Raleigh, and Wilmington and seven regional universities, Appalachian State, East Carolina, Elizabeth City, North Carolina Agricultural and Technical State, Pembroke, Western Carolina, and Winston-Salem. All are on a semester basis, except the University of North Carolina at Asheville, Appalachian, East Carolina, and Western Carolina, which are on a quarter system.

Uniform definitions of extension activities are almost nonexistent. Nevertheless, an effort has been made to compile comparable statistics. In consultation with extension directors at public senior institutions, the Board staff developed definitions of extension activities. These definitions are listed in Appendix B. Extension activities are classified into two broad categories: credit extension and noncredit extension.

Table 52 shows the number of students in credit extension in public senior institutions during the 1969-70 academic year. Table 53 gives information on noncredit extension. Any comparison among institutions should consider the difference between semester and quarter systems.

Figure 13 depicts counties where off-campus credit courses were conducted by public senior institutions during the 1969-70 academic year.

SECTION VIII

STUDENT COSTS

Basic student costs at all North Carolina colleges and universities for the 1970-71 academic year are described within this section. Costs are computed on an annual basis for full-time students for the regular academic year, excluding summer session(s). The data mirror information provided by institutions to the Board.

Table 54 describes combined total tuition and required fees for all institutions for the 1968-69, 1969-70, and 1970-71 academic years. Public institutions (senior colleges and universities) increased tuition and required fees by 16 percent over the previous year, while private senior colleges and universities showed an 11 percent increase. Inflation probably accounted for about 6 percent of these rises.

Table 55 shows tuition, required fees, room, and board by institution. Ranges of tuition and required fees at various types of institutions are shown in Figure 14. In addition to the costs reported in Table 55, the total cost of attending college also includes travel and personal expenditures. (Beyond these costs, students give up the opportunity to be fully employed when they attend school on a full-time basis. The income they forego while they are in school is included by many writers as an indirect, but significant, component of the total costs.) A detailed listing of fees is shown in Table 56. Fees for special programs are presented in Tables 57 and 58.

**All Community Colleges charge the same tuition rate.

SECTION IX

ADMISSIONS AND FINANCIAL AID

This section presents information concerning the academic ability of entering freshmen, as measured by standardized tests; the number of applications, acceptances, and enrollees; and financial aid to students at public senior institutions.

Table 59 shows the average Scholastic Aptitude Test (SAT) scores of entering freshmen from 1962 to 1970. The average score has steadily increased at most of the institutions. The rate of increase is especially outstanding among institutions which had, traditionally, lower average scores, as indicated by Figure 15. Institutional combined averages (verbal and math) of SAT scores ranged from 670 to 1,126 in fall 1970. The frequency distribution of SAT scores by institution is given in Table 60. In general, mean scores are slightly higher than median scores, depicting a small positive skewness. Table 61 shows the high school class rank of entering freshmen in fall 1970.

Table 62 shows the number of freshmen applications, acceptances and enrollees. (Note that total applications is an overestimate of total applicants, given the likelihood of applicants to apply to more than one school.) Table 63 gives the same information for transfer students.

A summary of student financial aid at public senior institutions during the 12 month period ending June 30, 1970 appears in Table 64. The total of non-athletic scholarships (grants and awards) for this year fell relative to last year (from 11,701 to 10,998), while athletic scholarships rose (from a total of 1,164 in fiscal 1969 to 1,286 in 1970). Total financial aid for all purposes came to approximately $19.2 million in the year ending June 30, 1970. This represented a decrease from last year's total, which was approximately $21.7 million. (Outstanding loans are not included in the grand total figures for given years.)

SECTION X

STUDENT HOUSING

Pertinent information on the student housing situation in public senior institutions in North Carolina is contained in this section.

General trends in dormitory facilities and their utilization are shown in Figure 17 and Table 65. Scrutiny of the data shows that occupancy above normal capacity has declined sharply. The 1970 figures show occupancy more than 2 percent below normal capacity. The percent of total enrollment staying in dorms has declined considerably since 1960 reaching the lowest level (46 percent) in 1970.

Enrollment by type of student housing is in Table 66. Under-utilization of dormitory space is the norm, but at least three schools, Appalachian, Fayetteville, and Western Carolina, still have overcrowded dorms, as measured by the percent of normal capacity housed.

SECTION XI

FINANCIAL STATISTICS

Financial data pertaining to public and private institutions in North Carolina is presented within this section. The time period for this data is the 1969-70 fiscal year, which ends on June 30. This date varies among private institutions to a certain degree.

Table 67 presents current funds revenue by source by institution. Total revenue from all sources increased by 29 percent for public senior institutions, from $226 million in 1968-69 to $292 million in 1969-70.

Tuition and fees in private senior institutions accounted for 27 percent of total current funds revenue, an increase of 1 percent over the previous fiscal year. Only 10 percent of total current funds revenue came from tuition and fees in public senior institutions for the 1969-70 fiscal year.

Table 68 gives a picture of current expenditures by sector during the 1969-70 year. Figure 18 gives a graphic summary of revenue and expenditures.

DEFINITIONS OF TERMS

The definitions below are intended to facilitate the better understanding of information presented in this report. These are selected from the Board's reporting forms and the U. S. Office of Education's Higher Education General Information Survey forms. Some specific definitions appear as footnotes in appropriate tables.

1. ENROLLMENT, unless otherwise noted, refers to the head-count resident-credit enrollment. The resident-credit enrollment includes full-time and part-time students enrolled in courses basic to or creditable to a bachelor's or higher degree. This excludes students in extension, correspondence, adult education, audited courses, short courses, and those enrolled for individual lessons only.

   Undergraduate includes students who have not completed a full four-year program or its equivalent and also students in a five-year bachelor's program. This classification includes students in junior and community colleges in programs transferable to four-year institutions.

   First Professional includes students who are in a professional school or program (law, medicine, dentistry, theology, etc.) which requires at least two or more academic years of previous college work for entrance.

   Graduate includes students who have attained at least one standard bachelor's degree or first professional degree and who are or might be candidates for a master's or doctor's degree.

   Entering Freshmen include new students who have no college credits prior to the immediately previous summer sessions.

   Full-Time Student includes students enrolled in credits equal to at least 75 percent of the normal full-time load. Normal full-time load is the number of credit hours required for graduation divided by the number of semesters or terms normally required for graduation.

   Part-Time Student includes students enrolled for less than 75 percent of the normal full-time load.

   FTE (Full-Time Equivalent) of Part-time Students is the total number of credit hours of part-time students divided by the normal full-time load. Recognition is made of variations in full-time load for different program levels.

   In-State Students are those whose legal residence, as determined at the institution, is in North Carolina.

Out-of-State Students are those whose legal residence, as determined at the institution, is in a state other than North Carolina or in a foreign country.

2. TRANSFER refers to students transferring to North Carolina institutions who have college credits from other institutions in a previous regular session(s). A former student transferring back to his original institution after attendance at another institution is not classified as a transfer.

3. DEGREES in this report refer to earned degrees conferred (not honorary). Specifically the following degrees are included:

Bachelor's Degree requires successful completion of at least four but not more than five years of academic work.

First Professional Degree signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance and which requires a total of at least six academic years of college work for completion. Examples of first professional degrees are the Bachelor of Laws (LL.B.), Doctor of Dental Surgery (D.D.S.), and Doctor of Medicine (M.D.) degrees.

Master's Degree is customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Doctor's Degree includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Doctor of Philosophy in any field.

4. FACULTY refers to the professional personnel employed in colleges and universities who are primarily assigned to resident instruction and departmental or organized research. This does not include other professional personnel in library, auxiliary enterprises, and public service activities.

5. EXTENSION ACTIVITY is defined in this report as any on- or off-campus instructional, research application, or public service activity sponsored by the reporting institution which is in addition to the regular on-campus instructional and research activities provided for the regularly enrolled, on-campus, degree candidate.

Credit Extension includes students in extension courses which are creditable toward a bachelor's or higher degree, an associate degree, a certificate, a diploma, or other formal award.

Non-Credit Extension includes students in other than credit extension.

On-Campus Extension generally includes students enrolled in evening or weekend courses or special part-time students taking day classes offered by the extension division. When the extension division is not separated from the regular programs, this includes students who enrolled only in evening or weekend courses.

Off-Campus Extension includes students enrolled in off-campus extension courses, excluding military centers.

Military Centers: students enrolled in military centers.

Correspondence students are those taking one or more courses for credit toward a formal degree, by mail.

Television Courses: students taking television courses for credit.

Adult Education includes adults enrolled in non-degree credit courses of regular length (or slightly shorter) which are designed for, or attended principally by, persons who have terminated their formal education.

Short Course refers to face-to-face, organized instruction in a specially designed course which lasts considerably less than the regular sessions but at least four separate days.

Other Types of Non-Credit Extension activities, if any, including courses offered by telecommunication media, conferences, and correspondence not for credit.
